

WEBSTER 101 COLLABORATIVE CLASSROOM

Faculty and Student Guide

The logistics of Webster 101 support collaborative teaching practices. Students are able to meet in small groups at conference tables, which positions the instructor in a facilitator role. The transfer from a teacher-centered aesthetic, to a student-centered one allows opportunities to be more actively engaged in their learning.

Students are able to connect their own devices (phones, tablets, or laptops) to the large monitors at each of the conference tables. This allows students to share and discuss content using devices they are familiar with, as well as observe others using technology. In addition, the media and monitors at the individual tables may be shared with the rest of the classroom, which allows all students access to the same content.

Classroom Features

Webster 101 Collaborative Classroom departs from standard classrooms found across campus, a unique space designed with these features in mind:

- Enhances community building and improves teacher/student and peer rapport
- Emphasizes student interaction
- Enables the instructor to facilitate engaged learning between and among students
- Supports media-rich content
- Functions as a learning laboratory
- Encourages peer instruction and project-based learning

Seating Capacity: **64** (8 tables, 8 seats per table)

COVID Seating: **28**

Video Sources: **AirPlay**
HDMI
Mini Display Port
MS Wireless Display Adapter

Writing Surface: **10 Marker boards**
76 feet total

Other equipment: **24" interactive display**
iClicker base
LED Clock-timer
Touch screen controllers
Wireless microphone
Wireless slide advancer
